

LEATHER GLOVES

Durable and comfortable, leather gloves provide reliable hand protection, making them perfect for tough construction tasks. From handling heavy materials to operating machinery, these gloves are the go-to choice for enduring the rugged demands of construction sites.

Discover our top leather glove picks for construction below.

BULLSHARK™ DOUBLE PALM COWHIDE LEATHER GLOVES

Double palm design for extra durability and strength making them the ultimate gloves for heavy-duty construction work. Protect hands and wrists against sharp or rough surfaces.

RTZ1200DP

BULLSHARK™ PREMIUM GRAIN LEATHER DRIVERS

Made of Buffalo leather, known for its toughness and durability. Perfect blend of durability and comfort - a great versatile glove. Offer protection against cuts, abrasions, and other injuries.

RTZ320G

BULLSHARK™ GOATSKIN LEATHER DRIVERS

Goatskin leather offers durability, flexibility, and a soft feel. Offers superior abrasion resistance and a tactile grip on tools. Flexibility allows for unrestricted hand movement and comfort.

RTZ8810

BULLSHARK™ SPLIT COWHIDE LEATHER PALM WORK GLOVES

Features a striped canvas back, 2.5" rubberized safety cuff for extra hand and wrist protection, and a Gunn pattern. Idea for construction, material handling, metal work, and more.

RTZ1200A

BULLSHARK™ SPLIT COWHIDE LEATHER PALM WORK GLOVES

Lined and sewn with Kevlar for additional heat, cut, and abrasion resistance, enhancing strength and durability. Maintain protection and comfort in prolonged use.

RTZ5560AT

BULLSHARK™ PREMIUM COWHIDE HI-VIZ LIME REFLECTIVE WORK GLOVES

Great solution when additional visibility is required such as during road construction or around heavy equipment. 2.5" rubberized safety cuff provides protection to wrist.

RTZ1100HV

CUT-RESISTANT GLOVES

Precision meets protection with cut-resistant gloves—essential for tasks involving sharp edges in construction, woodworking, and more. Ideal for construction professionals, these gloves ensure hands are shielded from cuts and abrasions without compromising dexterity during intricate tasks.

Discover our top cut-resistant glove picks for construction below.

**TSUNAMI GRIP® TUFF HYBRID PALM
DIPPED CUT-RESISTANT GLOVES**

Seamless 13-gauge glove with glass fiber strengthened Aralene® liner and foam nitrile dipped palm
ANSI Cut Level A4

GLBCR609

**SAMURAI GLOVE® TOUCH SCREEN
CUT-RESISTANT GLOVES**

Features an 18-gauge Tuffalene® liner and foam nitrile dipped palm for enhanced wet or dry grip and puncture resistance
ANSI Cut Level A4

GLBCR788

**HELIX® POLYURETHANE DIPPED
WITH 13-GAUGE HPPE KNIT SHELL**

Flexible polyurethane palm coating increases flexibility
Knit wrist prevents dirt and debris from entering glove
ANSI Cut Level A6

HEX2076

**SHARPSMASTER II® WRINKLE RUBBER
COATED CUT LEVEL A9 GLOVES**

Enhanced with SuperFabric® brand material to create the highest level of cut and needlestick resistance
ANSI Cut Level A9

HEX9014

**MAXIFLEX® CUT™ KNIT W/ PREMIUM
NITRILE COATED MICROFOAM GRIP**

The MaxiFlex® thin, flexible, precision handling glove for dry environments with added cut protection
ANSI Cut Level A2

PIP348743

**MAXICUT® ULTRA™ SEAMLESS KNIT
ENGINEERED YARN GLOVES**

360° breathability and form design increase comfort and reduce hand fatigue while working on the jobsite
ANSI Cut Level A3

PIP443745

COLD WEATHER GLOVES

Embrace warmth on the construction site with cold weather gloves, ensuring hands stay warm, dry, and ready for any cold-weather challenge. Whether handling materials in freezing temperatures or braving outdoor construction tasks, these gloves provide essential insulation for workers facing winter's bite.

Discover our top cold weather glove picks for construction below.

ICE GRIPSTER® WATER REPELLENT LOW TEMPERATURE GLOVES

7-gauge shell with heavy nap and soft brushed interior
Ideal for construction work in cold weather that requires dexterity and a great grip on tools and materials

GLB300INT

ICE GRIPSTER® TWO-LAYER PVC-COATED LOW TEMPERATURE GLOVES

2 layer shell provides extra insulation to keep hands warm when working on the job in cold weather
PVC coating enhances grip and stays flexible in the cold

GLB348INT

ICE GRIPSTER® HI-VIZ DOUBLE-COATED LOW TEMPERATURE GLOVES

Water repellent 13-gauge nylon shell over 10-gauge terry cloth
Puncture-resistance rubber palm remains flexible in the cold
Seamless brushed interior for additional warmth on the job

GLB388INT

BULLSHARK™ INSULATED COWHIDE LEATHER COLD WEATHER DRIVERS

Lined with Thinsulate™ to provide insulation without bulkiness
Cowhide leather is comfortable, durable, and breathable
Great solution for cold weather construction work

RTZ8255

FROGWEAR® COLD PROTECTION HI-VIZ INSULATED WATERPROOF GLOVES

Double-dipped PVC for better wear protection, abrasion resistance, and flexibility even on the coldest days
Sanded second dip finish provides an excellent wet grip

GLB880SCLG

GLOBAL GLOVE® NAVY SELF-WICKING HOLLOW CORE THERMAL GLOVES

Use as a liner in any glove for additional warmth
Cold Keep® thermal fibers prevent heat loss
Great choice for general purpose in cold weather

GLBS13T
