

ESSENTIAL PPE FOR AIRPORT GROUND WORKERS!

HIGH-VISIBILITY APPAREL

HEAD PROTECTION

EYE PROTECTION

HAND PROTECTION

FOOT PROTECTION

HEARING PROTECTION

RADIO CONTROL

Working on the tarmac means you're exposed to moving vehicles, heavy equipment, and unpredictable weather. Ensure you're properly protected with the right PPE to stay safe on the job!

- Always stay alert—keep an eye on vehicles and equipment around you.
- Follow tarmac safety protocols for safe navigation around aircraft and ground vehicles.
- Wear your PPE properly and check for wear and tear daily.
- Be cautious around jet blast zones—stand clear of the engines when they're running.
- Stay hydrated and take breaks—extreme heat and physical activity can wear you out quickly.

Protect Yourself. Protect Your Team. Keep Safety on Board!
