

RTZPAD

HARNESS

REPLACEMENT PADS

The Ritz Fall Protection harness replacement pad is a foam accessory designed to provide cushioning and support to wearers of Ritz harnesses. Replacement pads are excellent for those looking for a fresh pad without wanting to replace an entire harness. These pads help distribute the weight of heavy loads evenly across the wearer's shoulders, reducing fatigue and strain on the neck, back, and shoulders. Designed specifically for users of Ritz Fall Protection harnesses to provide customized comfort.

FEATURES

- A foam-based accessory pad designed for Ritz Fall Protection harnesses.
- Provide cushion and support and are made of breathable and durable fabric.
- The pads are attached to the harness using hook-and-loop fasteners.
- They distribute the weight of heavy loads evenly across the wearer's shoulders.
- This reduces fatigue and strain on the neck, back, and shoulders.
- They are a valuable accessory for people who frequently carry heavy loads.
