

RTZ4000

REUSABLE HINGED ROOF ANCHOR

This Ritz Fall Protection Reusable Hinged Roof Anchor is a high-strength device designed for safe anchorage on metal roofs allowing workers to perform work at heights. Its design ensures a vertical position and easy installation on roofs with different pitches. It is a reusable and cost-effective solution for businesses requiring a roof anchor for multiple jobs.

FEATURES

- Made from high-strength steel
- Allows multiple workers to work at height
- The hinged design ensures it stays vertical and can be easily installed on roofs with different pitches
- It is a cost-effective and reusable solution for businesses requiring a roof anchor for multiple jobs
- Complies with OSHA and ANSI standards for fall protection

TECH SPECS

Material	High-strength steel
Weight Capacity	Attach to structure or membrane that supports up to 5000 lbs.
Design	Hinged
Compliance	OSHA & ANSI Z359.18-2017
Reusability	Designed to be a reusable and cost-effective solution for multiple jobs
