5/8" D-RING CONNECTOR

The Ritz Fall Protection introduces our reusable 5/8" D-Ring Connector, a secure zinc-plated steel anchorage solution for versatile applications. This connector boasts a zinc-plated, steel D-ring with a single plate and a 5/8" hole, suitable for concrete and metal structures. It has the use of mounting it to either normal weight or sand lightweight concrete making it a reusable, safe and secure anchorage. A reliable choice for horizontal, vertical, or overhead anchoring needs in construction, mining, oil & gas, and more.

FEATURES

- Zinc-plated, steel D-ring, with single plate & 5/8" hole to be fixed to concrete as well as metal structures.
- D-ring can be safely used as an Anchor point.
- Lightweight, reusable and suitable for concrete and metal structures.
