

RTZSA09

ALUMINUM ADJUSTABLE BEAM ANCHOR

Ritz Fall Protection introduces the New Adjustable Beam Anchor, the optimal solution for secure and versatile anchorage needs. It is easily adjustable from both ends. This beam boasts of a 5000 lbs D-Ring strength for robust security. Ideal for a range of industrial and construction settings, ensuring compliance with ANSI and OSHA.

FEATURES

- 3" opening accommodates a wide range of anchor points and attachment hardware.
- Auto locking mechanism
- Zinc plated finish for corrosion resistance
- Adjustable hook
- Swivel D-Ring allowing for 360-degree rotation

TECH SPECS

Material (Adjustable Hook)	Aluminum
Material (Swivel Ring)	Steel
Beam Flange Thickness	0.25" - 1.25" thick
Opening for Beam	3.5" - 14"
Minimum Breaking Strength	5000lbs / 23KN
Weight	3.5 lbs
User Weight Capacity	310 lbs
Compliance	ANSI Z359.18-2017 Type A / OSHA 1926.502, 1910.66

STANDARDS

Meets or exceeds the applicable industry standards, such as OSHA and ANSI Z359.18-2017, ensuring its quality and performance in fall protection applications.
