

RTZPW11

PARAPET & FACADE ANCHOR

Ritz Fall Protection introduces the Parapet & Facade Anchor, the ideal solution for ensuring secure and damage-free anchorage points for workers. Featuring adjustable width, soft flange screw bolt anchors, and tool-free installation for versatile and damage-free usage on parapet walls and facades. Ideal for construction, industrial, and energy sectors, ensuring secure and non-damaging anchorage on parapet walls and building facades.

FEATURES

- Can be installed on varying thickness of the parapet with width adjustment feature
- Uses rubber disks to tighten on the parapet
- Two, screw bolt anchors with a soft inner flange
- Versatile to use on structures with widths from 2.5" - 14"

TECH SPECS

Material	High Strength Alloy Steel
Finish	Silver/Golden Yellow Galvanized
Minimum Width	2.5"
Weight	19.8lbs
Maximum Width	14"
Compliance	ANSI Z359.18-2017 TYPE A

STANDARDS

Meets or exceeds the applicable industry standards, such as ANSI Z259.1-2007, ensuring its quality and performance in fall protection applications.
