2FT DROP THROUGH ANCHOR WITH SWIVEL

Ritz Fall Protection introduces 2ft Drop Through Anchor with Swivel an innovative safety solution that offers strong and reliable fall arrest protection. These durable anchors boast a convenient drop-through plate design, providing a secure hold and a longer reach compared to standard D-ring anchors. Perfect for ensuring safety during construction and maintenance work in concrete and steel structures, these anchors provide peace of mind and dependable fall arrest support.

FEATURES

- Secure 4-inch plate for stability
- Heavy-duty 5,000-lbf loading
- Reusable & reliable design
- Ideal for concrete and steel
