

# SHARKSKIN MICRO COVERALLS

**BSKMP100**

## BullShark SharkSkin Microporous Elastic Wrists & Ankles

Introducing the BullShark SharkSkin Micro Coverall: Crafted with high-performance microporous polypropylene & polyethylene, this coverall is designed to offer superior protection and comfort in demanding environments. This microporous material provides excellent barrier protection against particulates and liquid splashes while maintaining breathability and flexibility. Designed with elastic waists, wrists and ankles, it ensures a secure and comfortable fit. Meeting rigorous ANSI/ISEA & ASTM standards, the SharkSkin Coverall is your dependable choice for safety and durability in industrial, healthcare, or hazardous environments.
