

RTZ4MAN100

TEMPORARY 100FT FOUR MAN HORIZONTAL LIFELINE

The Ritz Fall Protection horizontal lifeline is designed for fall protection for four workers at a time. It is ideal for use in a variety of industrial and construction applications. The horizontal lifeline is easy to install.

FEATURES

- Unique tensioning system keeps the cable taut, preventing sagging and ensuring safety
- 4 Steel O-Rings for harness attachments
- Rolling ball bearing element is included for a smoother function
- Permanently attached wrench for tension adjustment
- Brass swivel connector for rope twisting prevention
- Easy to install and can be attached to a variety of anchor points (using the carabiners), including concrete structures, steel beams, and roof anchors, with a maximum span of 100ft (30.48m) between anchor points
- Ideal for use in industrial and construction settings where fall hazards exist
- A reliable and durable fall protection solution that can be used in various work environments.

TECH SPECS

Length	100 ft (30.48 m)
Carabiner Type & Material	Quarter Turn Locking; Steel
Cable Material	5/8" Kermantle Rope
Lanyard Material	Polyester
Anchorage Connector Type	Type T
Max User Weight Capacity	220lbs
Cable Minimum Breaking Strength	5,000 lbs (22.24 kN)
Lifeline Connector Type	Carabiner
Item Weight	Approximately 59 lbs (26.76 kg)

STANDARDS

Meets or exceeds the applicable industry standards, such as ANSI/ASSP Z359.18-2017, OSHA and CSA requirements, ensuring its quality and performance in fall protection applications.
