

## TOR020

## 20' CABLE RETRACTABLE - CLASS 1

The El Toro 20' Cable Retractable with snap hook is designed to be used as a single person fall protection device. It features a mobility enhancing swivel-top, a rugged and durable housing, and a unique braking system that eases shock in the event of a fall. It suits construction, mining, oil and gas, transportation and general industry work environments.

### FEATURES

- The El Toro SRL features a 20 ft. galvanized steel cable lifeline, providing an extended working range for various applications.
- The galvanized steel cable (3/16" diameter) is designed to offer high strength, durability, and resistance to abrasion and corrosion.
- Housed in a high-impact-resistant thermoplastic or aluminum housing, providing durability and protection for the internal components from damage.
- Features a robust internal braking system that automatically locks and arrests the fall within inches, minimizing the risk of injury to the worker.
- The assembly is designed to support a user weight capacity of up to 310 lbs., including clothing, tools, and other equipment.
- Features a swivel anchorage connection, allowing for increased mobility and reducing the likelihood of the lifeline twisting during use.
- Snap hook included with the SRL is self-locking and features a large gate opening, providing a secure connection to the worker's body harness.

### TECH SPECS

Item Type	Retractable
ANSI User Capacity	130 - 310 lbs
OSHA User Capacity	420 lbs
Length	20 ft
Cable Material	Galvanized Steel 3/16"
Casing Material	Thermoplastic
Lifeline Connector Type & Material	Snap Hook; Steel
Max Arrest Force	6kN
ANSI SRL Class	Class 1

### ANSI Compliance Details

ANSI/ASSP Z359.14-2021
