

RTZ2MAN60

60FT TWO MAN

HORIZONTAL LIFELINE

The Ritz Fall Protection horizontal lifeline is designed for fall protection for two workers at a time. It is ideal for use in a variety of industrial and construction applications. The horizontal lifeline is easy to install.

FEATURES

- Fall protection designed for two workers at a time
- The two carabiners included can be attached to the workers' safety harnesses for a secure connection that prevents falls
- Includes a protective sleeve-covered stop-knot with the lifeline cable
- Dual steel O-rings for harness attachments
- The lifeline comes with a tensioner to keep the cable taut, preventing sagging and ensuring safety
- Easy to install and can be attached to a variety of anchor points, including concrete structures, steel beams, and roof anchors, with a maximum span of 60ft (18.28m) between anchor points
- Ideal for use in industrial and construction settings where fall hazards exist
- A reliable and durable fall protection solution that can be used in various work environments

TECH SPECS

Length	60 ft (18.28 m)
Carabiner Type & Material	Quarter Turn Locking; Steel
Cable Material	5/8" Kermantle Rope
Lanyard Material	Polyester
Anchorage Connector Type	Type T
User Weight Capacity	310lbs
Cable Minimum Breaking Strength	5,000 lbs (22.24 kN)
Lifeline Connector Type	Carabiner
Item Weight	Approximately 25 lbs (11.34 kg)

STANDARDS

Meets or exceeds the applicable industry standards, such as ANSI/ASSP Z359.18-2017, OSHA and CSA requirements, ensuring its quality and performance in fall protection applications.
