

## TOR030

## EL TORO 30' SELF-RETRACTING LIFELINE (SRL) WITH SNAP HOOK CLASS 1

The El Toro 30 ft. Cable Self-Retracting Lifeline (SRL) with snap hook is a durable and reliable fall protection device designed for workers operating at height. This SRL offers an extended working range and robust safety features, ensuring reliable performance in various work environments.

### COMES WITH

STEEL CARABINER

### FEATURES

- The El Toro SRL features a 30 ft. galvanized steel cable lifeline, providing an extended working range for various applications.
- The galvanized steel cable (3/16" diameter) is designed to offer high strength, durability, and resistance to abrasion and corrosion.
- Housed in a high-impact-resistant thermoplastic or aluminum housing, providing durability and protection for the internal components from damage.
- Features a robust internal braking system that automatically locks and arrests the fall within inches, minimizing the risk of injury to the worker.
- The assembly is designed to support a user weight capacity of up to 310 lbs., including clothing, tools, and other equipment.
- Features a swivel anchorage connection, allowing for increased mobility and reducing the likelihood of the lifeline twisting during use.
- Snap hook included with the SRL is self-locking and features a large gate opening, providing a secure connection to the worker's body harness.

### TECH SPECS

<b>Cable</b>	3/16" Galvanized Steel
<b>Cable Length</b>	30 ft
<b>Lifeline Connector</b>	Steel Snap Hook
<b>Anchorage Connector</b>	Steel Swivel Anchorage Eye
<b>Min. Breaking Strength</b>	3,400 lbs
<b>ANSI User Capacity</b>	130 lbs - 310 lbs
<b>OSHA User Capacity</b>	420 lbs. Max
<b>ANSI SRL Class</b>	CLASS 1

### STANDARDS

Meets or exceeds the applicable industry standards, such as ANSI/ASSP Z359.14-2021 and OSHA requirements, ensuring its quality and performance in fall protection applications.
