CONCRETE STRAP 4FT WITH LOOP END

The Ritz Fall Protection Concrete Strap 4ft with Loop End is a robust and versatile anchoring solution designed specifically for concrete applications. This durable strap, featuring a convenient loop end, provides a secure point of attachment for scaffolding, staging, and safety equipment, ensuring a reliable and safe setup for construction and maintenance tasks on concrete structures.

FEATURES

- Designed for instances where concrete anchor straps were not used initially or were not an option
- The stainless-steel plate easily installs by screwing in (8) concrete screws (ONLY 1/4" x 1 3/4" Tapcon® concrete screws, sold separately)
- Stamped-in-place D-ring or 4ft webbed lanyard with looped end can then be utilized as an anchor point
