

RTZTAG25

25' VERTICAL ROPE LIFELINE W/SINGLE SNAP HOOK

The Ritz Fall Protection 5/8" vertical rope lifeline is a safety equipment used in fall protection systems. It is designed to reduce the impact of a fall and slow down the worker's descent. Overall, it is a reliable and effective safety device for workers who need to work at heights.

FEATURES

- Synthetic fiber rope
- Single snap hook is included on one end of the rope lifeline
- Designed to be attached to an anchor point at the top of a structure and secured to a worker's harness or safety belt using the snap hook
- It can support a maximum weight of 310 pounds
- It meets OSHA and ANSI standards and should be inspected before each use
- It is provided with snap hook spliced at one end and the other side a stop knot

TECH SPECS

Rope Material	High-Strength Polydac Twisted rope
Snap Hook Material	Alloy Steel (Silver or Golden Yellow Galvanized)
Snap Hook Breaking Strength	5000 lbs
Weight Capacity	310 lbs
Weight	2800 gm±10gm
Rope Diameter	5/8 in
Length	25 ft

STANDARDS

Standards compliance: Meets or exceeds applicable OSHA, ANSI, and CSA standards for fall protection equipment.
