

RTZ1002012

12' CROSS ARM HEAVY DUTY STRAP

The Ritz Fall Protection Cross Arm Strap is a reliable safety equipment designed for anchorage on cross arms or other structures during work at height activities. This fall protection accessory is a reliable and robust piece of safety equipment, offering protection and comfort during work at height activities.

FEATURES

- The strap features a 1.75" wide polyester webbing stitched with 3" wide webbing on the back for extra protection
- Webbing materials provide durability and stability
- The stitching thread ensures strength and stability in the strap
- The metal components provide rust-resistance and durability in harsh environments
- The strap has a static strength of 5000lbs for 1 minute, ensuring its ability to withstand significant weight
- Lightweight design allows for greater flexibility and ease of use during work at height activities

STANDARDS

Tested as per ANSI Z 359.18-2017 TYPE T
