HEAT RELIEF & COLD WEATHER PPE

Traffic control workers face the risk of accidents every day. Make sure you're properly protected with the right PPE to keep you safe while managing traffic on the job site!

- Wear your high-visibility gear at all times, even when you're off the road.
- Stay alert—always be aware of your surroundings and vehicles in motion.
- Inspect PPE regularly for wear and tear, and replace damaged items immediately.
- Take breaks and hydrate—working in noisy, busy environments can be exhausting.
